

THE STANLAND GROUP LTD.

SYSTEM
FABRICARE

*Automatically dosed laundry products
for the on premise laundry*

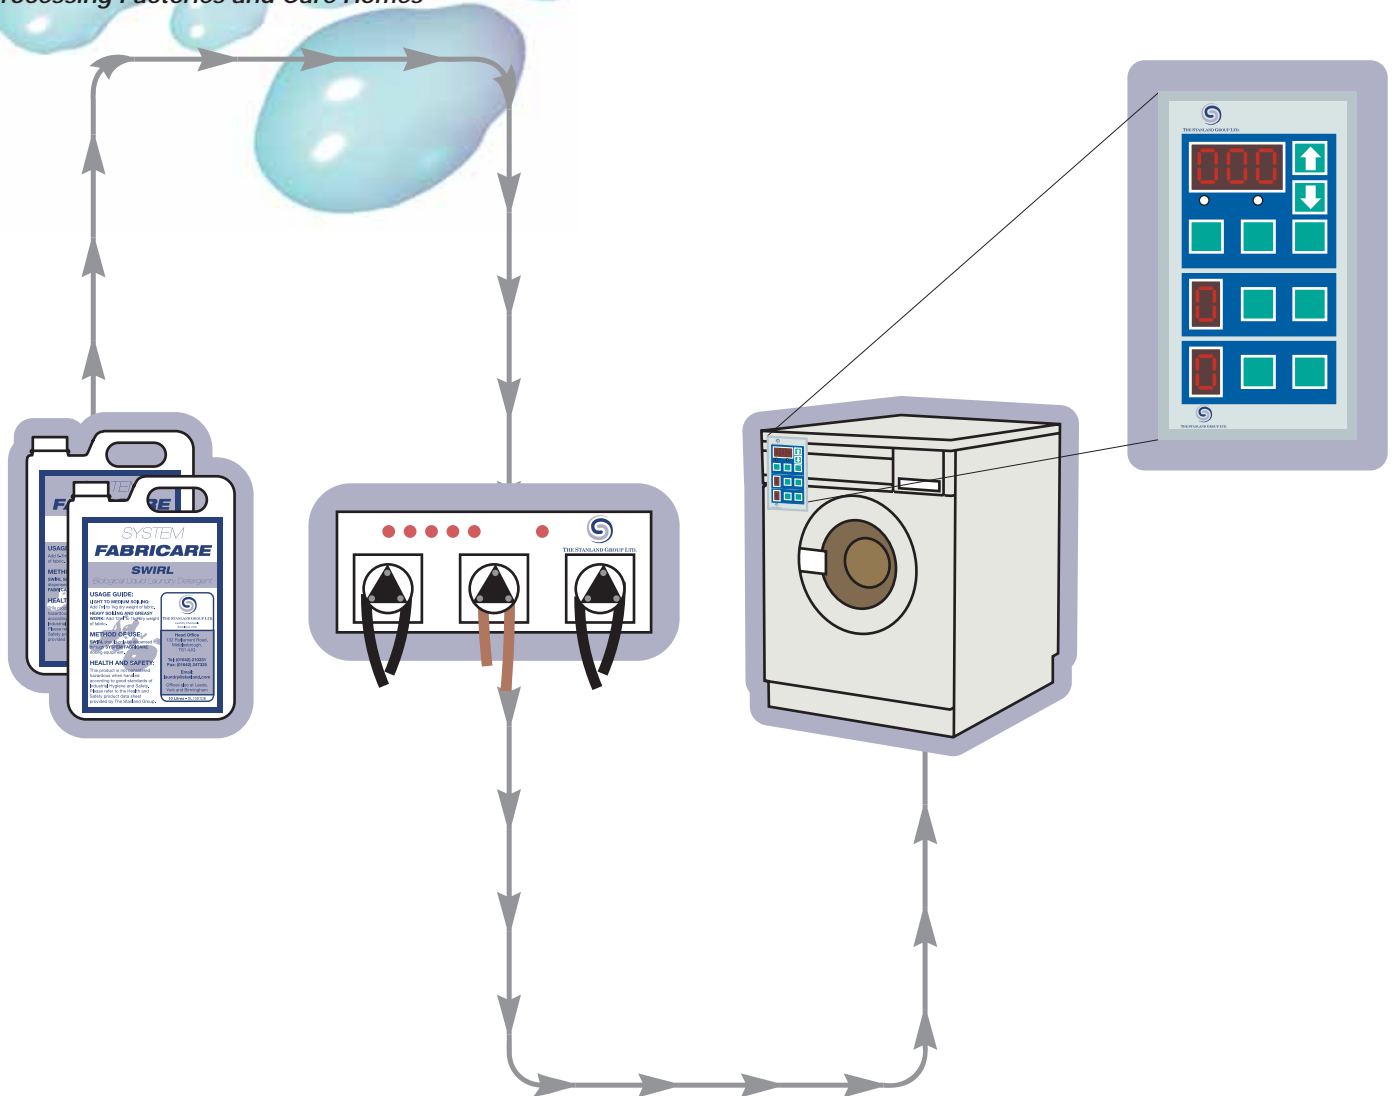

INVESTOR IN PEOPLE

SYSTEM FABRICARE

The complete laundry cycle

for Hotels, Leisure, Boarding Schools, Production & Processing Factories and Care Homes

Great wash results in 3 easy steps

1 A 'ONE TOUCH' program selection

2 ...chooses the RIGHT products

3 ...adds exactly the CORRECT amount to the wash

SYSTEM FABRICARE

Dosing equipment

SYSTEM FABRICARE dosing equipment interfaces with all commercial washing machines.

You do not pay for any equipment, installation or service work.

The equipment has a proven track record of unparalleled reliability.

The equipment allows us to provide unique product dosing for washing machines. We can provide up to eight different types of wash classification to match the different demands in your laundry.

Accurate dosing every time.

Product Management

A range of equipment to suit your laundry needs, including Management Report Systems which enable you to monitor usage and costs in addition to highlighting training needs.

Training and Advice on all aspects of *SYSTEM FABRICARE* equipment is *always* available.

SYSTEM FABRICARE Products

All products come in easy to handle 10 litre containers.

Products in use are stored in specially designed brackets mounted on the wall to avoid spillage and help keep the workplace safe, tidy and clean.

SWIRL laundry detergent

- High performance, fully built laundry detergent that achieves outstanding results across a wide range of wash classifications.
- Achieves clean, fresh, bright results.

SWIRL SOFT fabric conditioner

- Finished laundry is static-free, soft and pleasantly perfumed.

Plus Destainer and Stain Release are available for particularly heavily soiled laundry.

However performance, value and engineering expertise are only the start of your *SYSTEM FABRICARE* experience.

SYSTEM FABRICARE

A service as well as a range of products

- Our delivery drivers take your detergent and softener directly to the laundry and remove your empty containers.
- Our delivery drivers carry out a routine check of the system every time they visit.
- Our service engineers give a free and prompt breakdown response.
- Our ongoing service commitment includes regular visits to monitor your dosing equipment performance, and to consult with you and your staff on laundry standards and usage.
- Our sales staff give you **free training** on the most effective use of all your laundry equipment.
- All our staff are committed to COSHH and Health & Safety.
